

FAU SCHOOL OF ARCHITECTURE

Florida Atlantic University

2020 OPEN HOUSE + TECHNOLOGY SHOWCASE

Please join us for our Spring 2020 Open House and Technology Showcase. Faculty and staff from the FAU School of Architecture will be highlighting the newest technology that we have recently acquired, including our 3D printing and fabrication technology, our 3D scanner, large format digital displays, and augmented reality goggles. Students will have the opportunity to tour the school, and visit our studios, the FABLAB, the wood shop, and MetroLAB, our gallery and exhibition space in downtown Fort Lauderdale. Students will also learn more about the application process for the School of Architecture. These events will take place during regular studio hours, so students can experience the school in action, meet fellow Architecture students, and get a better sense of how our program works.

4:00pm - 6:00pm
Wednesday, February 5th
Thursday, February 6th

FAU Downtown Campus
111 East Las Olas Boulevard, HEC 801
Fort Lauderdale, FL 33301
