### MA IN LLCL: SPANISH READING LIST

***For students beginning Fall 2016 or later***

#### **I. DESCRIPTION OF THE COMPREHENSIVE EXAM**

*Note to the student: You should begin to prepare the works on this reading list as soon as you begin your graduate career. It is recommended that MA students take a variety of courses that cover different periods and literary trends. Nevertheless, it is your sole responsibility to prepare the works on this list and understand their importance in the development of literary history. The comprehensive exams are based on this list.*

#### ***Non-Thesis Option***

All MA students begin in the Non-Thesis option. For MA students who continue in the Non-Thesis option, the written comprehensive exams are normally taken in the last semester, and consist of questions that examine the student's knowledge of the literary works on this list, their historical context, stylistic and ideological trends, and the intertextuality of these works from the earliest periods to the present. The exam lasts 8 hours and is scheduled over a two-day period on the Monday of the 6<sup>th</sup> week of class and the Monday of the 7<sup>th</sup> week of class, from 12:00-4:00pm. The student may not consult a copy of the reading list during the exam. The written exam has the following format:

1. The first exam consists of 6 questions on Spanish American literature; the student chooses 4 questions and must write four analytical essay responses in Spanish. (4 hours)
2. The second exam consists of 6 questions on Spanish Peninsular literature; the student chooses 4 questions and must write four analytical essay responses in Spanish. (4 hours)

Each analytical essay response will receive a grade of "excellent," "pass," or "fail." If a student does not write an analytical essay response to the required number of questions in any given section of the exam, the student will automatically fail that entire section of the written comprehensive exam. If the student fails one or more sections, s/he will have only one opportunity to retake the failed section(s), and the retake must be within one year from the date of the original exam. The professor who coordinates the exam will set the date for the retake in consultation with the student.

### **Thesis Option**

If an MA student is interested in writing a thesis, s/he must submit an “Application for the Thesis Option” prior to the end of the second semester of full-time study. If the application is approved, then the student is admitted into the Thesis Option. For MA students writing a thesis, the comprehensive oral exam is normally taken in the seventh week of the third semester. The Thesis Director, in consultation with the student and the committee members, will set the date for the oral comprehensive exam. Usually, all of the Spanish professors participate in the exam. The student may not consult a copy of the reading list during the exam, and will respond to all of the questions in Spanish.

The oral exam consists of questions that examine the student’s knowledge of the literary works on this list, their historical context, stylistic and ideological trends, and the intertextuality of these works, from the earliest periods to the present. The oral exam will last approximately 1.5 hours. If the student does not pass the oral exam, s/he will have just one opportunity to retake it within one year of the date of the original exam. The thesis director will set the date for the retake in consultation with the student. The date of the thesis prospectus defense will be postponed until the student passes the oral exam. Typically, the thesis prospectus defense is scheduled for two weeks after the oral exam is passed.

### **Thesis Prospectus Defense:**

The thesis prospectus defense typically is held in the ninth week of the third semester of full-time study, and lasts approximately one hour. Two weeks prior to the thesis prospectus defense, but no later than the date of the oral comprehensive examination, the student will distribute a copy of the thesis prospectus to all committee members. The student should consult a sample prospectus to ensure that s/he uses the appropriate format. In addition to the thesis prospectus, the student should email the committee a pdf copy of the primary text(s) that the student will analyze from the edition that the student will be using. The thesis prospectus defense is comprised of two main sections:

- 1) a presentation of about 30-40 minutes by the student about the genesis of the topic, how s/he delimited the focus, what thesis s/he plans to affirm, the critical framework s/he will use, etc.;
- 2) the committee asks questions about the prospectus, what the candidate said, and may offer suggestions on ways to improve the focus, etc. The committee goes through the bibliography carefully, and may recommend additional books/articles that may be of use to the candidate.

The thesis prospectus defense ensures that all of the committee members have a chance to ask questions about the proposed thesis, to confirm the focus and parameters of the thesis, and to affirm that the entire committee is in agreement. If the committee does not approve the thesis prospectus, the student will reformulate the prospectus according to the stipulations of the committee, and will submit the revised prospectus. The Thesis Director, in consultation with the committee and the student, will schedule a new thesis prospectus defense date. If the committee approves the thesis prospectus, the student may then proceed to write the thesis on the topic, within the focus and parameters approved during the thesis prospectus defense.

## **Thesis Defense:**

The thesis defense is usually scheduled no later than the eleventh week of the last semester of a student's program, and typically lasts 1.5 hours. The student should verify the specific department, college, and university deadlines for the semester when s/he plans to graduate. The Thesis Director, in consultation with the student and the committee members, will set the date for the thesis defense. At least two weeks prior to the defense, the student will give copies of the completed thesis to all of the committee members. The thesis defense is comprised of three main sections:

- 1) a presentation of about 10 minutes on the genesis of the topic, the focus of the thesis, and the critical framework used;
- 2) a presentation of about 30 minutes on the thesis that the student affirmed, the chapter-by-chapter overview of how the thesis was supported by the research; and the conclusions that were reached;
- 3) the committee members ask detailed questions about the thesis, any sections that may need clarification, any issues that may need to be addressed, etc., to which the student responds.

On the date of the defense, the student will bring copies of the signature pages on the required stock paper and the correct pen with the correct color ink as stipulated in the Graduate College's guidelines. If the thesis is not approved, the candidate will make the major revisions stipulated during the defense, and resubmit the revised thesis to the committee. The Thesis Director, in consultation with the committee members and the student, will set a new date for the thesis defense. If the thesis is approved, the committee members will sign the initial pages right then. Each member of the committee will give the candidate his/her copy of the thesis with all of the errata and corrections clearly marked, so that the candidate can make the necessary changes. Typically, after all of the corrections are made, the candidate reviews the final manuscript with the Thesis Director prior to submitting it.
