COMMUNITY AND GOVERNMENTAL RELATIONS COMMITTEE Tuesday, November 14, 2017

SUBJECT: APPROVE NAMING OF UNIVERSITY ELEMENTS

PROPOSED COMMITTEE ACTION

Recommend that the BOT approves naming of a program within the College of Business in honor of Kathleen Brush, Ph.D. The proposed name of the program will be "The Kathleen Brush Program for Women in Leadership."

BACKGROUND INFORMATION

Donation:

Kathleen Brush, Ph.D., is donating One Million Two-Hundred Fifty Thousand Dollars (\$1,250,000) by providing a current use gift to launch the Kathleen Brush Program for Women in Leadership (\$250,000) and an endowed fund to support the Kathleen Brush Program for Women in Leadership in perpetuity (\$1,000,000 testamentary gift).

Gift Purpose:

The current use and endowed gifts will be used to establish and support the Kathleen Brush Program for Women in Leadership in the College of Business, to be directed by the Dean of the College of Business. The mission of the Kathleen Brush Program for Women in Leadership is to provide FAU's College of Business with the funding to serve as an educational center, committed to the study of women in leadership in business and government, the preparation and promotion of women in leadership, and to provide education and research so as to break down barriers to gender equality for leadership in business and government.

Donor's Prior Relationship with FAU:

The funding for the establishment of the Kathleen Brush Program for Women in Leadership is Dr. Brush's first gift to Florida Atlantic University. The gift consists of both a \$1,000,000 testamentary gift and \$250,000 in current use funding that will be used to launch the Program. This fund will benefit the

Florida Atlantic University College of Business, Florida Atlantic University in general, and ultimately the country as a whole.

Personal Information:

Kathleen E. Brush, Ph.D., has been working as a global leadership, business, and strategy consultant since 2009. Previously she was chief marketing officer at both Openwave Systems (2008 to 2009) and Webtrends (2007 to 2008). From 2006 to 2007 Brush was vice president of marketing channels at WatchGuard Technologies. She has also worked in interim executive positions for various companies. Brush describes herself as a "turnaround executive [who is] involved in restoring financial health and building strategies for [companies'] future growth."

Brush is the author of The Power of One: You're the Boss (CreateSpace Independent Publishing Platform, October 24, 2012); The World Made Easy (Kathleen Brush, publisher, March 12, 2012); and Leadership= Motivation = Innovation + Productivity: Get ready for the latest global challenges (Kathleen Brush, publisher, September 9, 2010). She is also a contributor to Fox Business, Black Enterprise, ITBusinessEdge, Success magazine, The Seattle Times, The Washington Post, and other media outlets.

Brush earned an M.B.A. from Florida Atlantic University in 1981. She earned a B.A. in pre-law studies from the University of Central Florida's College of Business Administration in 1978, and she earned a Ph.D. in management and international studies from Union Institute & University in 1998. Union Institute & University is a private, not-for-profit university in Cincinnati, Ohio, that offers limited residence and distance learning programs.

Program:

Attached is the Program description.

FISCAL IMPLICATIONS

There will be de minimis costs for the program to be located in the facility.

IMPLEMENTATION PLAN/DATE

Installation of signage: TBD

Presented by: Danita D. Nias Background Material: Phone: 561-297-3015 Description of Program

The Kathleen Brush Program for Women in Leadership

JULY 2017

THE KATHLEEN BRUSH PROGRAM FOR WOMEN IN LEADERSHIP BACKGROUND

In many countries, women have achieved equality, as seen via numbers in the labor force. This is untrue, however, for equality in positions of leadership, and the statistics are sobering. Globally, women occupy: 24% of senior management positions;12% of board positions;4% of chairpeople, and 4.2% of Fortune 500 and 3.5% of Global 500 CEO positions.

In the United States, in a study in 2015, women filled 37% of managerial positions, 33% of senior management/director positions, 29% vice president positions, 24% senior vice president positions, and merely 19% (-suite positions.'

Technology companies, the leaders in i nnovation, are particular laggards in recognizing the value of women in leadership. In Silicon Valley, for example, 70% affirms had no women on their boards, and 54% had no female executives.'

In academia and government, the statistics are equally sobering. Female college enrollees outnumber men, but women occupy only 30% of board positions, and only 26% are university presidents. Women have led national governments 5% of the time of men since 1960, the year the first female prime minister was elected, Sirivamo Bandaranaike of Sri Lanka. In 96 of 193 countries, female legislators are no more than 20% of the total. This includes the United States, which ranks bot11 out oh93 nations on this metric.

One grand problem of too few women in leadership was summed up in 1890 by Australian suffragette, Louisa Lawson, "Men govern the world, and the schemes upon which all our institutions are founded show men'sthoughts only."

Ironically, the leader of the 'free world,' the United States, could set the example for the world, but i nstead shirks real gender equality, and the reason is simple. Nations who lead in gender equality have more women in positions of political and economic power. Gender equality leaders, like Iceland, Finland, and Norway, have female participation rates in politics and businesses that are i.5to 2.5times higher than other i ndustrialized nations.³

When women hold positions of leadership, a shift toward equality is a natural outcome. Higher quality of life and superior economic outcomes always follow. In 2016, Iceland, Norway and Finland ranked among the top ten nations for the highest quality of life, while the United States ranked 19th.⁴

Organizations with higher rates of participation of women in leadership see positive effects on the "bottom line."Companies with the highest female board participation rates outperform those with the fewest, as seen in several factors, including Return on Sales (ROS), Return on Invested Capital (ROIC), and Return on Equity (ROE), to the tune of more than 40%. Another benefit includes fewer governance-related controversies.⁵

In 2015, *McKinsey* published a report showing that if women were to play the same roles as men in the labor markets, "...as much as \$28 trillion could be added to global annual GDP by 2025." That is a staggering 25% i ncrease. We cannot help but consider the number of people who would be lifted from poverty with this amount of generated wealth. Unfortunately, the possibility of this equality actually occurring, from now until 2025, is zero. Sadly, the assessment by *Lean In* and *McKinsey* states that "...at the rate of progress of the past three years, it will take more than 100 years for the upper reaches of US crporations to achieve gender parity."

Effecting change in the global landscape for women can be led with academia. *The Kathleen Brush Programfor WomeninLeadership* identifies this critical need and is committed to providing opportunities for the achievement of gender equality in leadership.

Without equality, women's issues will be disproportionately addressed, marginalizing the economic contribution of women, because women face barriers to maximizing their potential. In a century in which aging populations will be taking a bite out of economic growth, there is even more urgency to unleash the potential contributions of women - to the tune of a possible s28 tril lion per year.

THE KATHLEEN BRUSH PROGRAM FOR WOMEN IN LEADERSHIP THE STRATEGY HIERARCHY FOR THE PROGRAM

VISION OF THE PROGRAM

Educated people are forces to be reckoned with. For women, their force is becoming stronger. Across the United States and the world, women comprise a majority of college enrollments, but they are not the majority in business schools.⁶This will be changing in the 2I" Century, as women increasingly choose to major in undergraduate business programs, or pursue MBAs. Women will recognize that a business education is the superior path to advancing into positions of leadership that will enable them to achieve their potential. Governments, IGOs, and NGOs, aware of the economic and social benefits of greater levels of women in leadership, will support their efforts. More universities will be responding to this increasing demand, offering programs specific to advancing women in leadership.

ALLIGNMENT WITH VISION OF FAU

Thevision of FAU frames our pursuits and aligns our endeavors with those of the University. They include the creation and development of cutting-edge programs, community outreach and research, for a positive impact on key industries and issues that affect South Florida and beyond. This project aligns with core pursuits outlined in FAU'sStrategic Plan, reflected deeply in: Community Engagement, Economic Development, Global Perspectives, Leadership, Peace and Human Rights.

MISSION OF THE PROG RAM

The mission of the *Kathleen Brush Programfor Womenin Leadership* is to provide FAU's College of Business with the ability to serve as the evolving benchmark in the United States for educational Programs, committed to the preparation and promotion of women in leadership, in order to provide the skills to break down barriers to gender equality for leadership in business and government.

ALUGNMENTWITH MISSION OF FAU COLLEGE OF BUSINESS

The mission of the College of Business at Florida Atlantic University is to foster an academic environment of entrepreneurial thinking and intellectual achievement through research and teaching, which will prepare students for successful careers in business, governments, and community organizations.

STRATEGY

The Program will achieve its mission by structuring a multi-faceted program, which includes an academic focus, mentors, networking, and cohorts. The program will evolve with the times, always preparing graduates of the Program with the necessary skills to be the clear choice of decision-makers when competing for leadership positions today, and into the future.

The Program'sacademic programs will focus on giving students a competitive advantage over others in leadership programs elsewhere. We intend to emphasize globalization, apply theory to practice, promote digital fluency, teach entrepreneurship, and prepare women for line-management positions.7The Program will also address issues such as balancing work and home life, acquiring and perfecting skills that facilitate bridge-building, and skills formanaging diverse workforces.

The Program will go beyond academic preparation, promoting the development of effective networks to facilitate future success. There will be mentorship programs. The Program will conduct research to examine issues related to women in leadership that will inform public policy, alter the evolution of programs offered at the Program, and validate the roles and contributions of women in leadership. The Program will encourage scholars-in-residence and guest speakers committed to advancing women in leadership.

The Program will reach out to women across the United States and the globe. In many countries, the statistics on women in leadership are even more sobering, so the need to advance women leaders is even greater. But increasing diversity in the student body also has advantages for networking and improving cultural awareness.

A bold mission and multifaceted strategy that continually contemplates the changing needs for effective leadership will require the ongoing support and guidance of female and male luminaries, embracing the vision committed to the Program's mission. This will be the role of the Program's Board of Advisors.

⁶Forte Foundation ⁷"ln 2015,90% of new CEOs were promoted or hired from line roles, and 100% of them were men."(1)

Advancing the strategy by completing the strategic objective and initiatives below will allow the *Kathleen Brush Program for Women in Leadership* to achieve its mission. Doing this offers many benef its. FAU's female business and management graduates will be evolving role models for female leaders and change-agents for dosing the gender gap. The FAU College of Business will present a compelling choice for students and faculty aspiring to be role models for female leaders.

FAU will be recognized as the advancing model for universities to prepare women for leadership, becoming an exemplar for leadership educational programs for men and women. The world has a desperate need for more effective leaders who can make work a productive and rewarding place, and establish greater functionality in governments. The Program is committed to raising the bar on leadership education, benefiting everyone and ensuring the achievement of our mission. Having women set that bar will be a crowning achievement.

OBJECTIVES

In order for the *Kathleen Brush Programfor Women in Leadership* to be uniquely valuable in comparison with similar Programs, now and in the future, the *Kathleen Brush Programfor Women in Leadership* must become the benchmark for others to follow.

A: Due Diligence

Proper research, evaluation, analysis, best-practice pursuits and evaluation are all requirements to launch the *Program*. The following initiatives with regard to due diligence will help guide our pursuit to ensure success.

Initiatives

- Evaluate the offering of other current and prospective competitors, including business schools across the United States.
- Compare the offerings of other Business Schools with FAU'sCollege of Business.
- Develop a plan for maintaining competitive advantage by leveraging FAU'swomen-centric leadership program meaning, stay ahead of the curve, read the latest articles and trends (good and not-so-good), and advance the program by addressing current needs and demands quickly.
- Identify and hire a Coordinator for the Program.
- Develop the bi-laws for the Board of Advisors (BOA) (see Advocacy)
- Identify women and men to build a solid BOA which will provide a source for lay leadership, guidance, fundraising and reputationbuilding (see Advocacy)
- Evaluate leveraging female MBA students to augment their program via a certificate in leadership
- Assess the opportunity for the Program to work with the MPA program to advance me women in the public sector.
- Define areas of importance for the Program by year, including the execution of all objectives.
- Define the metrics that will be used to evaluate success of the Program.
- Create a processfor regularly evaluating the progress of all initiatives and metrics.
- Based on evaluations, refine objectives, initiatives, and budgets to maximize the success of the Program.
- Create a timeline of all activities, delivery of programs and initiatives, organization chart, and costs. Create a separate breakout for the initiatives associated with the s50,000 gift amount in years 2-5.
- Develop a five-year, best-use-of-funds budget (see Budget Evaluation below).

Budget Evaluation

In addition to focusing on building a foundation for The Program, the budget will evaluate:

- The timing of scholarships and fellowships for undergraduate and graduate students
- An annual Kathleen Brush Women In Leadership Conference for panel discussions, networking, mentoring, career services and corporate outreach
- Research programs
- Attracting and retaining credentialed instructors
- The Kathleen Brush Scholar program; and
- Professional development

B:Course Identification

Develop a program that augments FAU management and business degrees to prepare women to be effective leaders, setting a new bar for leadership education, with a Certificate for Women in Leadership at FAU's Executive Education.

Initiatives

- The creation of a curriculum that embraces globalization -for women in business, politics, non-profit, etc.
- Specific globalization course (emphasis on nistory)
- Leadership versus Management (emphasis on motivation and inspiration)
- · Managing workforces that have ethnic and gender diversity
- Digital fluency
- Entrepreneurship
- Applying theory to practice
- · Preparing women for line management positions: finance, product marketing, manufacturing, R&D, engineering
- Social issues (work-life balance, diverse workforces, understanding origins and evolution of patriarchy, and advancing gender equality)
- People skills to facilitate bridge-building and networking

THE KATHLEEN BRUSH PROGRAM FOR WOMEN IN LEADERSHIP

Committed to the Preparation and Promotion of Women in Leadership

C: Advocacy

Create an advisory board of no less than six women and three men committed to the cause of preparing and advancing women in leadership. Their role is to help identify key requirements and later serve as advocates for the program.

Initiatives

- Develop a list of nationally recognized women and men luminaries committed to the cause of preparing and advancing women in leadership.
- Develop a program of outreach, including media; Implement the program.
- Develop a plan for active engagement with those women and men that are part of, or prospective advisors, and other advocates of the Program
- New advisory board mem bers added yearly, on two-year terms, with nominating process according to bi-laws.
- Develop a plan for active engagement with the busi ness community in Boca, South Florida, the region and nationally
- Create a strong cadre of women mentors for our students, continuing to build this group via alumna

D: Communications

Communications is central to our marketing, promotion, reporting, advocacy, and the development of on-going support.

Initiatives

- Develop a communications plan to include marketing (print, internet, social media) and public/media relations (timeline, costs, messaging) that will reach advocates, and prospective students and faculty.
- Identify top tier academic and popular media outlets in the United States and global media outlets for submissions that will generate interest from the community, supporters, faculty, and students (US and foreign).
- Develop a plan for promoting the Program via the FAU website, social media, special events, programs, services and an annual award.
- Develop an internal/external promotion program to maintain support for the Program from faculty, administrators, staff, students, financial supporters, and prospective supporters of the Program (regular outreach program, highlight with events the achievement of milestones and accomplishments, graduate success stories, media mentions, attendance and enrollments)
- Develop KPls to assess performance

E. Faculty

- Develop plan for supporting faculty, permanent/visiting scholars, whose purpose will be to lecture on leadership topics.
- Design a plan for developing faculty as role models for the Program.

F: Special Programs

The *Program* will distinguish itself from the myriad of leadership programs around the nation, not just by our unique vision and mission, but via the execution of special programs that encapsulate our philosophical approach to leadership for women and grow the Program's influence with strategic events, programs, and services.

Initiatives

- Define requirements for a *Women in Leadership Certificate* that will be also be offered online for reach nationally and internationally.
- Build a separate plan with timeline; target availability in 2018.
- Define the processand program for developing a mentorship program (criteria, recruiting and maintaining mentors).
- Develop prospective research topics to facilitate the Program's commitment to informing public policy, advancing the evolution of the Program, and validating the contribution of women in leadership and economic expansion/qua!ity of life (work with Division of Research).

g Define program for Kathleen Brush Women Scholars, with special application and FAU designation.

- Develop a networking program for women in the *Program*, FAU graduates and other women leaders, all committed toadvancing women in leadership, cross-networked with men. (Men overwhelming occupy the C-Suite and are very influential in promotion decisions).
- Program to include social media, face-to-face, education/social events, programs and eventually special housing.

G: Fundraising:

Identifying, cultivating, soliciting and stewarding donors - individuals, corporations, foundations and grant-giving institutions - will be the foundation of our development approach.

- Development strategy to include a gift chart and funding proposal.
- Identify donors, cultivate prospects individuals, foundations, corporations.
- Solicit and steward donors, create challenge grants, naming opportunities, endowments, scholarships, fellowships, sponsorships, etc.

H:Launch (deadlines will be defined during the due diligence initiatives)

- Launch the *Program's* academic, mentoring and networking programs
- Board of Advisors meetings, committees, and expectations (bi-laws, contributions, etc) fully executed
- Enroll first cohort of Kathleen Brush Scholars in the Certificate Program
- Begin mentor program; begin plans for Kathleen Brush Women in Leadership Conference/event around annual Kathleen Brush Women in Leadership Award
- Begin assembling first alum ni program for networking
- Ongoing fundraising, public and media relations, blogging and website updating
