**FLORIDA ATLANTIC UNIVERSITY**

**Graduate Programs—NEW COURSE PROPOSAL**

**DEPARTMENT:** Biological Sciences  
**COLLEGE:** Charles E. Schmidt College of Science

**RECOMMENDED COURSE IDENTIFICATION:**

PREFIX: BSC  
COURSE NUMBER: 6466  
LAB CODE (L or C): 

*(TO OBTAIN A COURSE NUMBER, CONTACT mjennin@fau.edu)*

**COMPLETE COURSE TITLE:** Computer Graphics for Biologists

**EFFECTIVE DATE**

(first term course will be offered)  
**Fall 2014**

**CREDITS:** 3

**TEXTBOOK INFORMATION:** Provided online at  
HTTP://WWW.SCIENCE.FAU.EDU/HARKLAB/COURSES/GRAPHICS/READINGS.HTML

**GRADING (SELECT ONLY ONE GRADING OPTION):**  
REGULAR X  
SATISFACTORY/UNSATISFACTORY

**COURSE DESCRIPTION, NO MORE THAN THREE LINES:**

This hands-on graduate course will introduce students to how computer graphics are used in biological sciences for illustration, data extraction, and presentation. Each class will integrate formal lecture sessions with hands-on application at a computer.

**PREREQUISITES:**

**COREQUISITES:**

**REGISTRATION CONTROLS (MAJOR, COLLEGE, LEVEL):**

Permission of Instructor required

*PREREQUISITES, COREQUISITES AND REGISTRATION CONTROLS WILL BE ENFORCED FOR ALL COURSE SECTIONS.*

**MINIMUM QUALIFICATIONS NEEDED TO TEACH THIS COURSE:** Specialization in the pertinent fields, contingent upon departmental approval

Faculty contact, email and complete phone number:

Stephen Kajiura, Ph.D.  
KAJIURA@FAU.EDU  
(561) 297-2677

Please consult and list departments that might be affected by the new course and attach comments.  
Department of Biological Sciences: This course was previously a Special Topics class and needs a new course number.

**Approved by:**

Department Chair:  
College Curriculum Chair:  
College Dean:  
UGPC Chair:  
Graduate College Dean:  
UGS President:  
Provost:  

Date: 04.01.14

1. Syllabus must be attached; see guidelines for requirements:  

2. Review Provost Memorandum: Definition of a Credit Hour  
   www.fau.edu/provost/files/Definition_Credit_Hour_Memo_2012.pdf

3. Consent from affected departments (attach if necessary)

Email this form and syllabus to UGPC@fau.edu one week before the University Graduate Programs Committee meeting so that materials may be viewed on the UGPC website prior to the meeting.

FAUnewcursesGrad—Revised September 2013
Computer graphics for biologists

Course: BSC 6466-001
Instructor: Dr. Stephen Kajiura
Office: Sanson 215; hours: Tue 1:30 – 4:30pm
Course website: http://www.science.fau.edu/sharklab/courses/graphics/index.html

Semester: Fall 2014
Email: kajiura@fau.edu
Phone: 561-297-2677

An overview of how computer graphics are employed in the life sciences.

Lecture schedule:
Tue 6:00 – 9:00 pm
SC 118
Aug 18 – Dec 10, 2014
See attached schedule for details

Content:
This hands-on graduate course will introduce students to how computer graphics are used in biological sciences for illustration, data extraction, and presentation. Each class will integrate formal lecture sessions with hands-on application at a computer. Enrollment is limited to the number of computers available. All instruction will be on the Macintosh platform and familiarity with the Mac OSX operating system is a course prerequisite. Students will be exposed to the following software: iPhoto, Photoshop, ImageJ, Illustrator, iMovie, Quicktime and Powerpoint. Familiarity with these programs is not required, although it is beneficial.

The lectures will introduce students to raster graphics and how they can be manipulated to facilitate data extraction. Considerable time will be spent on how to capture biologically meaningful photographs since the quality of the data is dependent upon the quality of the image. Students will then be taught how to utilize image analysis software to extract data from the photographs. The second half of the course will examine how vector graphics are used for illustration. Students will learn how to prepare figures for publication, prepare a poster and a media-rich Powerpoint talk. An introduction to video editing will complete the suite of tools to which the students will be exposed.

Students will be graded on their final presentation, their critique of other presentations and their participation in class discussions.

Final presentation:
Each student will present a conference-ready Powerpoint talk (12 min) incorporating photographs, vector graphics and a video clip. The other members of the class will critique the technical aspects of the presentation and provide constructive feedback. With permission of the instructor, a student may be able to substitute a conference poster for the talk. The poster will be subjected to the same class critique.

Students with disabilities:
In compliance with the Americans with Disabilities Act (ADA) students who require special accommodations due to a disability to properly execute coursework must register with the Office for Students with Disabilities (OSD) located in SU 133, x73880, and follow all OSD procedures.

Prerequisites: Familiarity with the Mac OS X operating system is a prerequisite.

Tentative schedule – the instructor reserves the right to reassign the order of the lectures.
Policy on absences, makeup tests, late work, and incompletes
Absences for which a medical or court excuse is provided (professional letterhead required) will be
recorded but not figured in the attendance grade. Likewise, one absence for which advance notice is
given by phone or in person will not be figured in the attendance grade. Students will be given the
opportunity to make up exams missed only during excused absences. Any significant tardy or early
departure from class will be figured as one absence. Three absences will result in grade F. An
Incomplete (I) will be given to students who, at the end of the course, have not completed all of the
required course work due to exceptional circumstances, but otherwise have passing grades.

Students with Disabilities
In compliance with the Americans with Disabilities Act (ADA), students with a disability who
require reasonable accommodations to properly execute coursework must register with the Office for
Students with Disabilities (OSD) - in Boca Raton SU 133 (561-297-3880); in Davie, LA 240 (954-236-1222); in Jupiter, SR 110 (561-799-8010) – and follow all OSD
procedures.

Religious Accommodations
Students who wish to be excused from course work, class activities or examinations must notify the
instructor in advance of their intention to participate in religious observation and request an
excused absence.

Code of Academic Integrity policy
Students at Florida Atlantic University are expected to maintain the highest ethical standards.
Academic dishonesty is considered a serious breach of these ethical standards, because it interferes
with the university mission to provide a high quality education in which no student enjoys an unfair
advantage over any other. Academic dishonesty is also destructive of the university community,
which is grounded in a system of mutual trust and places high value on personal integrity and
individual responsibility. Harsh penalties are associated with academic dishonesty. For more
information, see University Regulation 4.001.
