MEMORANDUM

To:

College and University Undergraduate Programs Committee

From:

Dr. Ingrid Johanson, Chair, Pre-health Professions Committee

We are requesting some minor changes to the Pre-Health Certificate program, made in response to upcoming changes in the Medical College Admissions Test (MCAT). Specifically, as of 2015, the MCAT will have a 4th subtest covering the behavioral and social sciences. For this reason, we have removed the requirement for Mcirobiology (MCB3020) and have added SYG1000 Sociology for students interested in medicine. PSY1012 General psychology was already required for all Preprofessional students pursuing the certificate.
