

About this Report

FAU's mission, vision, and values speak to a level of employee engagement which extends beyond mere compliance with laws, rules and policies. FAU's commitment, supported by the Compliance and Ethics Program (CEP), is to the highest standards of integrity, accountability, and ethical conduct. FAU's CEP creates a structural foundation to prevent and detect violations of law and assist FAU in encouraging ethical conduct and compliance with all applicable laws and regulations. The program proactively identifies and assesses risk to the University and strives to mitigate those risks through appropriate controls, governance processes as well as developing or implementing training and awareness for the University community.

This three-year annual report focuses on highlights of compliance and ethics matters from fiscal years 2021-22, 2022-23, and 2023-24. It includes activity happening throughout the University, including without limitation compliance and ethics activity led and/or accomplished by the University's compliance office and the University's compliance partners. The annual report is not intended to provide a comprehensive overview of all compliance and ethics-related activity that occurred at the University in these fiscal years.

Compliance Partners

A. Executive Oversight

Oversight and direction for the CEP sets the overall tone for accountability, sound risk management, ethical behavior, and compliance with laws and regulations. The compliance office serves as a central point and resource for coordination, collaboration, and oversight of activities and initiatives to promote and encourage a culture of compliance and ethical behavior. Most of initiatives in this component are ongoing activities.
