RSVP: david@fau.edu by March 20, 2019

• Learn how a class found over 300 species in one city block! • The Sidewalk Safari, a highly accessible approach to environmental education for every school, from urban to rural. • Participants will be engaged in ways that will enable them to use this approach in any environment, thereby giving freedom to teach out-of-doors anywhere. • The approach is easily accessible to teachers. • Can be accomplished by any teacher with a passion for teaching.

Light refreshments will be provided.
