FAU Controlled Substance Diluted Solution Log*

*This log sheet is to be used for **diluted** controlled substances **only**.

DEA Registrant (Print Name):	Date mixed:
Name of Controlled Substance (CS):	CS taken from container ID#
CS Schedule #:	Final Concentration:

Usage is tracked on a per dose (use) basis and the log balance must match the physical balance of the solution at all times. Each log sheet can only be used for a single container. Record total quantity to the nearest metric-unit weight, or the total number of units' finished form. This log sheet does not replace the log for your original CS container. The purpose of this log sheet is for the lab to track the concentration and the remaining volume of all solution vials that contain a give CS. Do not exhaust the entire CS bottle in creation of one solution.

Date of Use (MM/DD/YYYY)	Reason for Use; and animal species and number or In Vitro (e.g. anesthesia, mouse)	Amount withdrawn from original container (ml, mg, etc.)	Amount of diluent added to make mixture	Total volume of mixture/Concentration	Comments (include any amount wasted ¹)	Authorized User Initials/Witness Initials ²

¹Amount of recoverable waste (unused doses in syringes, etc). This should be disposed of in the RxDestroyer. For questions, contact EH&S.

²Witness initials for any material that is wasted in the RxDestroyer.
