

FLORIDA ATLANTIC UNIVERSITY

# CRYSTAL SUMMER CAMP

**Attention Middle School Students!** Florida Atlantic University's College of Engineering and Computer Science is hosting a 5-day engineering summer camp, and thanks to the generous support of the National Science Foundation, there's no cost for attendance. This is a unique opportunity to immerse yourself in the fascinating worlds of crystals, high technology, and marine life. During the camp, you will engage in a variety of thrilling activities designed to spark your interest in science and engineering.

- Conduct hands-on experiments that will allow you to apply scientific principles in a practical setting
- Discover marine life and explore the rich biodiversity of our oceans
- Grow a crystal garden and learn about the intricate processes involved in crystal formation
- Learn about high technology and its applications in various fields

## DETAILS:

- June 8th - 12th, 2024
- 9:00 am - 3:00 pm
- Boca Raton Campus
- Cost: FREE

This camp not only provides a chance to learn and explore but also encourages women, individuals with disabilities, and minorities to apply. Space is limited to just 10 participants, ensuring an intimate and focused experience. If you are interested, please send a one-page essay explaining why you would like to attend to [vmerk@fau.edu](mailto:vmerk@fau.edu).
