(CERTIFICATE OF ELIGIBILITY) (22 CFR 62 Exchange Visitor Program)

DEPARTMENT INSTRUCTIONS

The Office of Global Academic Services advises FAU departments on appropriate visa classifications for prospective international visiting scholars in the categories of professor, research scholar, short-term scholar, specialist, or international student intern. Departments who wish to invite J-1 exchange visitors temporarily for research, teaching, lecturing, consulting, or participation in seminars must submit the Request for Form DS-2019 for J-1 Scholar. The prospective international scholars will use Form DS-2019 (Certificate of Eligibility for J-1 Exchange Visitor) to apply for the J-1 Exchange Visitor visa at a U.S. embassy/consular post in his or her home country. The J-1 visa status cannot be used for tenure-track positions or other permanent positions at the university. Visitors coming to campus in B-1 (visitor for business) or WB (visa waiver – ESTA) status are not permitted to engage in collaborative research. Please consult with Global Academic Services at globalservices@fau.edu to determine whether this classification is appropriate for the proposed activities.

HOST DEPARTMENT INSTRUCTIONS:

Eric oversees the procedures related to the new Florida Foreign Influence Law. Once the foreign influence screening has been completed, please retain a copy of the e-mail confirmation and include it with the DS2019 request packet.
- Please provide the Exchange Visitor with **Part II - Exchange Visitor DS-2019 Application Request Packet** to the visitor to complete.

PART I SECTION D – DEEMED EXPORT CONTROL CHECK

Department Instructions: Complete the “[Visa Applicant Export Control Questionnaire for Sponsored & Non-Sponsored Activities](#)” form and submit it to Cassandra Rey cassrey@fau.edu via email. You will be asked for additional information. Once the check is completed, please forward the “confirmation memo” with this packet.

Link to Form: <https://www.fau.edu/research-admin/export-control/files/deemed-export-questionnaire-visas-and-visitors-dec-2022.pdf>

Link to Government Regulations: <https://www.bis.doc.gov/index.php/policy-guidance/deemed-exports/deemed-exports-faqs>

Bureau of Industry and Security/ U.S. Department of Commerce: Any foreign national is subject to the deemed export regulations except a foreign national who (1) is granted permanent residence, as demonstrated by the issuance of a permanent resident visa (i.e., Green Card); or (2) is granted U.S. citizenship; or (3) is granted status as a protected person under 8 U.S.C. 1324b(a)(3). This includes all persons in the U.S. as tourists, students, businesspeople, scholars, researchers, technical experts, sailors, airline personnel, salespeople, military personnel, diplomats, etc.

NAFSA: Activities of non-immigrants on campus may come under the purview of several kinds of export control regulations:

- The Department of State's International Traffic in Arms Regulations (ITAR) regulate the transfer and export of technologies relating to military applications listed on the Munitions Controls List (MCL).
- The Department of Commerce's Export Administration Regulations (EAR) regulate the transfer and export of technologies relating to civilian applications listed on the Commerce Control List (CCL).
- The U.S. Department of Treasury's Office of Foreign Assets Control (OFAC) regulates restrictions created by trade embargoes.

Technology or source code is considered to be exported not only under the traditional sense of shipping it overseas; an export of technology or source code can also be "deemed" to take place when it is released to a foreign national within the United States. Deemed exports must be authorized through an export license issued by the responsible Government agency.

Technology or code is considered "released" for export when it is "available to foreign nationals for visual inspection (such as reading technical specifications, plans, blueprints, etc.); when technology is exchanged orally; or when technology is made available by practice or application under the guidance of persons with knowledge of the technology." Many activities at colleges and universities can benefit from several exclusions to the export license requirement, including a fundamental research exclusion, an education exclusion, and a public domain exclusion

Part of a college or university's institutional responsibility is to determine if an export license must be sought for particular activities.

Florida Atlantic University: FAU is committed to complying with all United States export control laws and regulations. These laws and regulations were created and implemented by agencies including, but not limited to, the Department of Commerce (Export Administration Regulations - EAR), the Department of State (International Traffic in Arms Regulations

– ITAR), and the Department of the Treasury (Office of Foreign Assets Control – OFAC).
