Updated Sponsored Programs Forms Now Available on the OSP Webpage

<https://www.fau.edu/research-admin/sponsored-programs/agreements-and-forms/>

Funding In Anticipation of Award (updated)

The Funding In Anticipation of Award form was recently updated to include a justification for requests that are over three (3 months) and/or more than 25% of the budget period award amount. This request form may be used when a sponsor has indicated their intent to fund a sponsored project, the official award/agreement is under review but not finalized, all compliance requirements have been met, and there is a need for a Workday account to be established. The Principal Investigator's Chair and Dean (or other unit supervisor) must approve this request.

Account Set-up for Projects Involving Humans, Animals or Biohazardous Materials (New)

The Account Set-Up for Projects involving Humans, Animals or Biohazardous Materials form is a new fillable form. This request form may be used when there is a need to establish a Workday account prior to finalizing an IRB, IACUC or IBC protocol approval for a sponsored project. The Principal Investigator must provide a justification for this request and assure that they will not engage in any human or animal research or research involving biohazardous materials until such protocol is approved.

Modified Total Direct Costs (MTDC) and Total Direct Costs (TDC) Budget Templates

The excel budget templates for both MTDC and TDC have been updated to include the current fringe benefit and F&A rates.

Please share this information with your faculty in your department/college.

If you have questions about these forms, please reach out to your assigned Award Administrator in OSP. Thank you.
