Good afternoon - as these courses are listed as available only to Honor's College students, this should not affect the Medical Biology major in my department. I have no objection.

Best,

Dr. Sarah L. Milton  
Professor and Chair  
Department of Biological Sciences  
FAU

**Subject:** Approval for Concentration Changes at WHC

Good Morning Sarah,  
I hope you are having a great semester. The WHC plans to make a few changes to our Biology Concentration. Primarily, we are adding electives, and removing courses that are no longer offered. We are also proposing a new concentration in Biomedical Science. I do not expect our plans to have any effect on your programs. Do you have any objections to our plans? I am copying our curriculum committee chair, Terje Hill.  
Thanks.  
Julie
